**September 9-10, 2017  
Basic Acupuncture - #5  
Instructor: Zev Myerowitz, DC, Dipl.Ac.  
(NCCAOM), Lac.**

In this session of the 100-Hour Acupuncture Certification Course Dr. Zev Myerowitz presents a detailed study of the Liver Meridian Patterns, Pathogenic Factors, Emotions, Diet, Qi Stagnation, Blood Stasis, Liver Fire, Liver Wind, Damp Heat, Cold Stagnation, Blood Deficiency, Yang Rising, Combinations and needling of each point. In hours 3 and 4 Dr. Zev does a detailed study of the Ren Meridian, Special Effect Points, and conditions treatable, with needling of each point. In hours 5, 6 and 7 he provides a detailed study of the Du Meridian, Special Effect Points and conditions treatable, with needling each point. In hours 8, 9 and 10 he covers Scalp Acupuncture. In hours 11 and 12 he describes and discusses the Eight Extra Vessels, Special Effects, Treatment Techniques, Needle, Electro, Ion Pumping and Ba Gua. In hours 13, 14, and 15 Dr. Myerowitz discusses the Five Element transporting and application. He wraps up with a Tongue and Pulse Diagnosis workshop. This course is taught by one of the most knowledgeable and most popular acupuncturists in our profession,

so it is with great pride that we welcome him to our campus. Zev J. Myerowitz, D.C., Dipl.Ac. (NCCAOM) is a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is past President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join us for this opportunity to study with Dr. Myerowitz.

Performance Health Rehab  
Certification - #1  
Instructor: Jeffrey H. Tucker, DC, DACRB  
Deborah Joan Denno, DC**

We are extremely excited to have this 3-session 36-hour Certification Course on our campus. The Performance Health Rehab Certification Course is taught by nationally known teachers Jeffrey Tucker, DC, DACRB, and Deborah Denno, DC. This course is approved by the American Chiropractic Rehab Board for continuing education credit and for credit toward the Rehab Board Diplomate Certification. This is a truly information-packed seminar with hands-on training that you can use in your practice right away. On Saturday Drs. Tucker and Denno start with an introduction to the course discussing value-based chiropractic, in-office assessments and exercise training and home exercise programs (HEP). They cover general assessment and teaching us how to perform an advanced static posture analysis and movement assessment with a hands-on workshop. They continue Saturday with Broad Movement Screening and Advanced Movement Assessment workshops. They describe and demonstrate mobility and stability exercises, including the Table Top to Tip Top concept of exercise progressions for the chiropractic patient. They wrap up the Saturday session with a workshop on the use of foam rolling and roller massage as well as an introduction to the

Flex Bar, Stretch Strap, Stability Balls, Stability Pads, and Exercise Station. On Sunday they begin the day with taping workshops including the Big 4: lumbar, shoulder, kyphosis, and dorsiflexion of the ankle. They also teach the POLITE acronym: Plan, Optimal Loading, Instruments, Tape, Exercise. This is a jam-packed weekend with lots of workshops and hands-on practice. If you attended Dr. Tucker's two-hour session at the 2017 Spring Symposium you know you are in for a treat. He's a great instructor! The course is taught by Dr. Jeffrey Tucker and Dr. Deborah Denno. Jeffrey H. Tucker, DC, DACRB is a 1982 graduate of Los Angeles College of Chiropractic. He is a Diplomate of the American Chiropractic Rehabilitation Board and one of the most popular and sought after speakers in our profession. Deborah Joan Denno, DC is a 1989 graduate of Logan College of Chiropractic. She has completed Module 1 of the Diplomate of the American Board of Chiropractic Internists (DABCI) program and is an Associate Professor at Cleveland University in Kansas City, Kansas. Please join these excellent presenters on campus for this outstanding program. This seminar may be taken as a stand-alone presentation or when combined with Session 2 and 3 for certification.

**Times: Saturday 1:00pm - 7:00pm  
Sunday 8:00am - 2:00pm**

# What you take away from this exciting new program

This 3 weekend, 36-hour certification course is designed to provide established Chiropractic professionals and students with a new skill set that blends evidence-based sports medicine, exercise rehabilitation, orthopedics, neurology and functional assessments.

You will learn the latest trends in interpretation of functional movement tests and outcomes, group fitness, time-efficient treatments, effective muscle balancing techniques, body weight and band workout methods, obesity, chronic pain, healthy aging and other innovative methods to enhance treatment and recovery.

On the business side you will learn to recognize that everything from your reception desk to check out is an opportunity to educate your patients and grow your practice. Your patients will know you are serious about exercise as an important tool in their recovery.

Join our team and earn a new PHRS (Performance Health Rehab Specialist) certification that integrates a full learning experience that prepares you for the day-to-day management of assessing and treating real cases.

## Module 1 Key Takeaways

- Introduction to Active Care Model
- Define Key Outcome Assessment Tools (OAT)
- Movement Assessments / Mobility and Stability
- Exercise Sequencing and Progression
- Kinesiology Taping Concepts
- (POLITE) Plan, Optimal Loading, Instruments, Tape, Exercise
- The Business of Rehab
- Performance Health Edge™

## Module 2 Key Takeaways

- The Patient Evaluation Process from "Head to Toe"
- Defining Diagnosis/Exercise Interventions/Taping (DET)
- Upper Body Assessment with DET
- Lower Body Assessment with DET
- Posterior Chain Re-Programming
- Upper Crossed Syndrome "Key Eight" with DET

## Module 3 Key Takeaways

- Posture Assessment and Importance
- (OAT) Specific to Upper and Lower Extremity Evaluation
- Bunkie Tests evaluation for Functional Core
- Anterior and Posterior Chain with (DET)
- Key Conditions Affecting Upper and Lower Extremities with (DET)
- Key Concerns affecting Special Populations

## Meet the instructors

### Dr. Jeff Tucker

- Practicing in Los Angeles since 1982
- Highly specialized practice in wellness care and advanced rehab procedures for his patients.
- Writes monthly for a number of Chiropractic publications on a variety of subjects.
- Board member and officer for DACRB
- Primary instructor of diplomat programs for Rehab board

### Dr. Debbie Denno

- Graduate of Logan College of Chiropractic with 27 years of practice experience
- Associate Professor at Cleveland University-Kansas City teaching NMS diagnosis and soft tissue technique
- Lectures on assessment and management of extremity complaints
- Multiple Tape Technique certifications, FAKTR certified
- Instruction in SFMA, McKenzie (Lumbar & Cervical/Thoracic)

**September 23-24, 2017 - Clinical Biomechanics and Functional Assessment of Musculoskeletal Disorders**  
**Instructor: Bryan Bond, DC, MS, PhD (cand)**

This weekend we welcome Dr. Bryan M. Bond to our campus to present Clinical Biomechanics and Functional Assessment of Musculoskeletal Disorders. The seminar is designed for healthcare providers who frequently manage musculoskeletal conditions. According to Dr. Bond, "Human movement analysis, or identifying dysfunctional motor patterns, may play an important role in pinpointing the underlying cause of symptoms, rather than simply isolating sources of pain. While establishing clinical assessment from the viewpoint of a movement pattern, the clinician may recognize meaningful impairments that appear unrelated to primary main musculoskeletal complaint, but actually cause or facilitate the associated pain syndrome." This weekend Dr. Bond discusses the Janda approach, presents an overview of Functional Movement Screen (FMS), discusses Functional Outcomes, and reviews Spine Biomechanics including Functional Anatomy, Kinematics, Kinetics and more. Bryan M. Bond, DC is a graduate of National University of Health Sciences. He is a professor in the Department of Chiropractic Sciences at Cleveland Chiropractic College and a professor and Director of Research in the Department of Physical Therapy at the University of St. Mary. Please join Dr. Bond this

weekend for this excellent seminar.

**Don't forget that attendance this weekend by full-time doctors results in a 5% discount on your next renewal of your NCMIC malpractice insurance premium and part time doctors will receive a 2.5% discount.**

**Times: Saturday 1:00pm - 7:00pm  
 Sunday 8:00am - 2:00pm**  
**Tuition: \$230 Regular Registration  
 \$195 Early Bird Tuition\***

*\*Tuition must be received by September 8, 2017 to qualify for discount.*

**September 30 - October 1, 2017**  
**The Case for Chiropractic**  
**Instructor: William Huber, DC, DACAN, MS(R)**

We have a great seminar this weekend on our campus. This is a seminar that every practicing chiropractor should attend. Dr. Bill Huber, an acknowledged expert in chiropractic research, especially on the subluxation and the chiropractic adjustment, presents *The Case for Chiropractic*. The role of chiropractic, and specifically the chiropractic adjustment, has been debated for years. This seminar details the established and current research on not only what the adjustment does, but also how chiropractic itself works. This includes information on brain function changes with adjusting, effects of adjusting on brain development, ADD, ADHD, maintenance of brain health, prevention of brain decline, isolation testing mechanisms, effects on visceral organs and much more. This is not anecdotal information, it is scientific research as to the effectiveness of chiropractic treatment and its necessity. This course is designed to build a logical substantiated pathway from local effects of adjusting to how it has been shown to change the function of the human brain and its functions. This provides a long awaited description of the current information on how the adjustment works, effects the human brain and its functions and why it is irreplaceable! This course is designed to detail, explain and review the current research surrounding the documented effects of chiropractic – specifically the adjustment. This includes

review of anatomic and neurologic structures and functions, as well as current research describing the effects of this type of management on local musculature, spinal cord, brainstem and the highest levels of the human cerebrum or nervous system. This excellent seminar is taught by William F. Huber, DC, DACAN, MS (R). Dr. Huber is a 1989 graduate of Logan College of Chiropractic. He holds a Master's Degree in Human Anatomy Research from St. Louis University School of Medicine. He has a Diplomate in Neurology from the American Chiropractic Association of Neurologists as well as a Diplomate and Lead Instructor for the Diplomate College Board of Chiropractic Neurologists. Dr. Huber really brings this topic to life. He is also a member of the Logan University faculty and a faculty member in the Allied Health Division of Forest Park College. Please join him for this great seminar!

**Times: Saturday 1:00pm - 7:00pm  
 Sunday 8:00am - 2:00pm**

*\*Tuition must be received by September 15, 2017 to qualify for discount.*

**October 7-8, 2017**  
**Basic Acupuncture - Session #6**  
**Instructor: Zev Myerowitz, DC, Dipl.Ac. (NCCAOM), Lac.**

This weekend Dr. Myerowitz presents the sixth and final session of the 100-hour Acupuncture Certification Course. This session includes a review, a point location skills examination, and a comprehensive final examination. Dr. Myerowitz begins the session with discussion and description of the Ghost Points and covers the Influential Points and the Huazotojaji Points. During hours 5 through 10 he conducts a review the entire course material in preparation for the certification exam. In Hours 9 through 11 Dr. Myerowitz administers the Clean Needle technique exam and then in hours 12 through 16.75 he administers the point location skills examination and the comprehensive written examination. This course is taught by one of the most knowledgeable and most popular acupuncturists in our profession, so it is with great pride that we welcome him to our campus. Zev J. Myerowitz, D.C., Dipl.Ac. (NCCAOM) is a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification

Commission for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is past President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join us for this opportunity to study with Dr. Myerowitz.

**October 14-15, 2017**  
**Certified Laser Practitioner**  
**Instructor: Nelson Marquina, MSc, PhD, DC**

It's been a while since Dr. Marquina has presented a postgraduate seminar at Logan, and we are thrilled to have him back this weekend. In this first and only University Certified Laser Practitioner program in the United States, Dr. Marquina delivers the scientific, safety and hands-on training to ensure high proficiency in the safe and effective use of therapeutic lasers for chiropractors, physical medicine practitioners and their staff members. Advanced laser therapy pushes the boundaries of biology, physics and technology. In this program, you'll learn the most effective methods for pain relief, resolving inflammation, and increasing the speed, quality, and strength of tissue repair. Lasers are powerful tools for healing when used under the supervision of a practitioner with expertise in advance treatment techniques. The seminar is taught by Nelson Marquina, MSc, PhD, DC. Dr. Marquina is a 1998 graduate of Logan College of Chiropractic. He holds a PhD in Systems Engineering from the University of Houston, a Master's Degree in Statistics from Worcester Polytechnic Institute in Worcester, Massachusetts, a BSc in Mathematics from Hamilton College in Clinton, New York, and a Clinical Psychology Degree from Universidad Ricardo Palma in Lima, Peru. He is the President of USA Laser Biotech, Inc. He is a licensed DC in Virginia and an internationally sought after

speaker on laser therapy. Dr. Marquina is the author of the chapter *Energy Medicine: Focus on Lasers* in **The Scientific Basis of Integrative Health**, third edition (2017). This chapter provides a scientific basis for the clinical application of lasers, illuminating the capabilities of therapeutic laser light to be safely absorbed by human tissues and organs for repair and cellular regeneration. Dr. Marquina also authored a chapter, explaining how lasers work in **Pain Relief and Healing with Lasers: Dental Protocols of Laser Treatment** (2015). Dr. Marquina is known for his enjoyable and effective teaching style and down-to-earth hands-on approach to lasers. Dr. Nelson Marquina is a developer of biophotonic and bioelectromagnetic systems and treatment protocols. Please join Dr. Nelson Marquina this weekend for a fascinating and practical certification course.

**October 21-22, 2017**  
**Performance Health Rehab Certification - Session #2**  
**Instructors: Jeffrey H. Tucker, DC, DACRB**  
**Deborah Joan Denno, DC**

The 36-hour Rehab Certification Program continues this weekend with Session # 2 taught by Dr. Jeffrey Tucker and Dr. Deborah Denno. In this session Drs. Tucker and Denno discuss the evaluation process. They demonstrate tests to perform that lead to (DET) diagnosis/exercise intervention/taping considerations. They discuss outcomes assessment with each assessment test explained. In Hour 3 they describe in-office and at-home rehab equipment to be used throughout the DET, including Scoliosis – diagnosis, exercise, taping; and Kyphosis – diagnosis, exercise, and taping. In Hour 4 they cover breathing assessment, rib fracture and contusion, and the Thoracic Outlet Syndrome protocols. In Hour 5 Drs. Tucker and Denno discuss squat evaluation and interpretation of feet, knees, lumbopelvic hip complex and cervical spine. Hour 6 is a workshop on lumbar erector spinae strain with diagnosis, exercise and taping. Hour 7 includes sciatica versus piriformis diagnosis. In Hour 8 they discuss stenosis, spondylolisthesis, and sacroiliac joint diagnosis, exercise and taping. This hour includes a workshop on lumbar stabilization assessments, exercises and posterior chain reprogramming. Hour 9 covers Janda's Upper Crossed Syndrome, corrective mobilizers, inefficient stabilizers and evidence-based approach to forward head posture. In Hour 10 there is a discussion and demonstration of proper evaluation, rehab, and exercise intervention along with support treatment for headaches, cervical sprain/strain and cervical spondylosis. In Hour 11, Drs. Tucker and Denno cover cervical radiculopathy, Temporomandibular

Dysfunction and chronic neck pain patients. They wrap up this excellent seminar by helping us put it all together in the office. The course is taught by Dr. Jeffrey Tucker and Dr. Deborah Denno. Jeffrey H. Tucker,

DC, DACRB is a 1982 graduate of Los Angeles College of Chiropractic. He is a Diplomate of the American Chiropractic Rehabilitation Board and one of the most popular and sought after speakers in our profession. Deborah Joan Denno, DC is a 1989 graduate of Logan College of Chiropractic. She has completed Module 1 of the Diplomate of the American Board of Chiropractic Internists (DABCI) program and is an Associate Professor at Cleveland University in Kansas City, Kansas. Please join these excellent presenters on campus for this outstanding program. This seminar may be taken as a stand-alone presentation or when combined with Session 1 and 3 for certification.

**November 4-5, 2017**  
**5 Highly Effective Acupuncture Patterns - The Sunderlage Protocols**  
**Instructors: Gary Ditson, DC, LAc.**  
**Nicholas Gatto, DC, Dipl. Ac.**

This weekend Dr. Gary Ditson and Dr. Nick Gatto present a very important acupuncture class on our campus. Drs. Ditson and Gatto present the Sunderlage Protocols – a course that introduces and reviews the Sunderlage Acupuncture Patterns starting with Pattern 1 and ending with Pattern 5. The course objective is to teach the practitioners the latest in scientific findings verifying how and why the Sunderlage Acupuncture Patterns work and how to choose which pattern to use on the individual patient, along with how to progress through the patterns. They begin with an introduction and history of acupuncture in the United States; detail Jon Sunderlage's legal fight for the right to practice acupuncture, the development of the acupuncture patterns and the science of the patterns as it applies to the Pyramid of Health. They begin with Pattern 1 and then move on to Pattern 2. They end the Saturday session with a lab session on Patterns 1 and 2. On Sunday they discuss and demonstrate Pattern 3, Pattern 4, and Pattern 5. In Hour 10 they discuss extra acupuncture points including the use of micro acupuncture to enhance the protocols. This excellent 12-hour presentation wraps up with a lab session on Patterns 3, 4, and 5, and a question and answer session. The class is taught by Dr. Gary Ditson and Dr. Nick Gatto. Gary Ditson, DC, LAc. is a 1968 graduate of Logan College of Chiropractic and is on the Board of Directors for the Auriculotherapy Certification Institute. He is a frequently requested and respected lecturer on Acupuncture, Auriculotherapy and the micro-systems including scalp Acupuncture. He recently lectured to the Cancer Treatment Centers of America on Auriculotherapy. Dr. Ditson maintains a busy private

practice of Chiropractic in Wentzville, Missouri where he also uses Auriculotherapy, scalp Acupuncture and body Acupuncture in the treatment of his patients. Nicholas J. Gatto, DC, Diplomate Acupuncturist is a 1983 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and is a Loomis Digestive Health Specialist. Dr. Gatto is a nationally known and respected lecturer on acupuncture and on the Loomis System. He maintains a busy private practice in Downers Grove, Illinois. Please join them this weekend for this fascinating seminar full of information and protocols that you can use in your office on Monday morning.

**Times: Saturday 1:00am - 7:00pm**  
**Sunday 8:00am - 2:00pm**

**November 11-12, 2017**

**Overview of Specialized Technique - The Purser Center Special Event Seminar**

**Instructors: Mary Unger-Boyd, DC; Kelly Brinkman, DC, MCS-P; Nofa Shibley, DC, DACNB and Daryl Ridgeway, DC**

This weekend we have a special treat for any chiropractor who enjoys learning new techniques—and what chiropractor doesn't? The Purser Center Special Event Seminar presents three hours each of Sacro Occipital Technic (SOT®), Cox Flexion Distraction Technique, Thompson Technique and Instrument Assisted Soft Tissue Mobilization (IASTM)/Manual Soft Tissue Mobilization. As with all of our Purser Center Special Event Seminars, this 12-hour

seminar combines continuing education for license renewal with food, fun, and prizes. And all for the low early-bird tuition of \$110.00. The weekend kicks off with Dr. Mary Unger-Boyd presenting an overview of Sacro Occipital Technic (SOT®). In this 3-hour session Dr. Unger-Boyd introduces management considerations using SOT® protocols for lumbar, sacral and pelvic pain patterns. It includes evaluation and management utilizing manual adjusting techniques, pelvic blocking procedures and associated myofascial patterns to lumbar, sacral and pelvic pain syndromes, and includes a hands-on session. Dr. Unger-Boyd is a 1997 graduate of Logan College of Chiropractic. She is a Certified Craniopath, Sacro Occipital Resource Society International (SORSI) and a Certified Advanced (SOT®) Practitioner. Dr. Unger-Boyd teaches at Logan University and maintains a private chiropractic practice in Cedar Hill, Missouri. Following Dr. Unger-Boyd, Dr. Kelly Brinkman presents Cox Specialized Technique. In the course of three hours you'll get an overview of the Cox Flexion Distraction Technique which was pioneered by Dr. James Cox of Fort Wayne, Indiana. Topics of discussion include the effects of the adjustment, the two protocols, the research behind the technique and the application for every type of diagnosis that walks into a chiropractic office. Demonstration of the technique with hands on practice will also be provided. Kelly Brinkman, DC, MCS - P is a 1990 graduate of Logan College of Chiropractic. Dr. Brinkman is a Certified Cox Flexion Distraction Practitioner and teaches this technique at Logan University. Dr. Brinkman is also a Certified Insurance Consultant and Medical Compliance Specialist, Physician. She has a private practice of

chiropractic in Wentzville, Missouri. On Sunday morning Dr. Nofa Shibley starts the day with an overview of Thompson Technique. Thompson Technique is a full spine high velocity low force adjusting technique utilizing a drop table and the Derifield leg check analysis. Dr. Shibley's presentation includes history of the technique, demonstrations and a hands-on practical portion. Nofa Shibley, DC, DACNB is a 1997 graduate of Logan College of Chiropractic. She is a Diplomate of the American Chiropractic Neurology Board. She is certified in Thompson Technique and teaches it at Logan. Dr. Shibley has a private practice in Clayton, Missouri. The overview of specialized techniques seminar concludes with an overview of IASTM (Instrument Assisted Soft Tissue Mobilization)/Manual Soft Tissue Mobilization Techniques presented by Dr. Daryl Ridgeway. In this 3-hour session attendees will experience an overview of hands-on application of the principles and techniques of manual soft tissue manipulation, including Instrument Assisted Soft Tissue Mobilization. Demonstrations of IASTM, Myofascial Release and Positional Release will be followed by hands-on lab practice. The class is designed to provide the doctor with soft tissue techniques which can be efficiently utilized in practice as an adjunctive procedure to the chiropractic adjustment. Please dress comfortably for hands-on practice. Dr. Daryl Ridgeway is a 1997 graduate of Logan College of Chiropractic and a long time faculty member at Logan where he teaches diversified technique and soft tissue techniques. He has a private practice in Wentzville, Missouri. Please join us for 12 hours of specialized technique presented by 4 expert instructors. The seminar includes two hot meals, prizes and fun at the Purser Center for the early bird tuition of only \$110.00. (No other discounts apply) You really don't want to miss this one!

**Times: Saturday 1:00pm - 7:00pm  
Sunday 8:00am - 2:00pm**

to qualify for discount.*

**November 18-19, 2017  
Advanced Acupuncture - Session #1  
Instructor: Zev Myerowitz, DC, Dipl.Ac.  
(NCCAOM), Lac.**

This weekend we kick off the second 100 hours of our new 300-Hour Acupuncture Course. The course is taught by Dr. Zev Myerowitz. The Advanced classes delve deeper into all aspects of acupuncture and can lead to Diplomate status with the American Academy of Chiropractic Acupuncture and eligibility to sit for the Diplomate examination of the American Board of Chiropractic Acupuncture. **Dr. Myerowitz wants to remind you that the manual will be provided via flash drive, so please bring your laptops. The cost for the manual is \$10. Attendees must be certified in acupuncture in order to attend the advanced program.** In this session Dr. Myerowitz conducts a brief review of the Basic 100-Hour Program and then covers an introduction to Chinese Herbs and Foods. In hours 10-12 he presents TCM Herbal Prescriptions (Pin Yin Formulary). In hours 12-18 he presents TCM Diagnosis and Chinese Herbs. He wraps it all up and in hours 18, 19, and 20 with Specific Herbal Testing and Protocols. If you are already

certified in acupuncture you won't want to miss this opportunity to become an expert, maybe even a Diplomate in this powerful healing art. The course is taught by Zev Myerowitz, DC, Dipl.Ac. (NCCAOM), Lac. Dr. Myerowitz is a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is past President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join Dr. Zev Myerowitz this weekend for Session # 1 of this in-depth course in Advanced Acupuncture.

to qualify for discount.*

## Advanced Acupuncture

November 18-19, 2017 - Session #1  
December 9-10, 2017 - Session #2

January 13-14, 2018 - Session #3  
February 10-11, 2018 - Session #4

March 10-11, 2018 - Session #5

## SCHEDULE

**December 2-3, 2017**  
**Performance Health Rehab**  
**Certification - Session #3**  
**Instructors: Jeffrey H. Tucker, DC, DACRB**  
**Deborah Joan Denno, DC**

In this final session of the Rehab Certification Program Drs. Tucker and Denno provide more information, and administer the examination for certification to those doctors who have completed all 36 hours. The seminar starts with the DET evaluation process for the extremities. Outcome assessment tools (OAT) are introduced, filled out by participants and case histories evaluated. They also provide a workshop on static posture evaluation and an introduction to Fascial System (Anterior Oblique System, Posterior Oblique System and Lateral System). In Hour 4 Drs. Tucker and Denno present the Posterior Chain Reprogramming workshop with the use of the CLX band and the Stretch Strap. In Hour 5 they present workshops on Anterior Chain Reprogramming. They wrap up Saturday with a presentation on the shoulder – diagnosis, exercise therapy and taping techniques. On Sunday Drs. Tucker and Denno continue with treatment of shoulder conditions. They continue with wrist and hand – diagnosis, exercise therapy and taping techniques. And in Hour 10 they cover hip and leg. In Hour 11 they discuss knee and lower leg. The seminar and certification course ends with ankle and foot – diagnosis, exercise therapy and taping techniques - and the certification exam. The course is taught by Dr. Jeffrey Tucker and Dr. Deborah Denno.

Jeffrey H. Tucker, DC, DACRB is a 1982 graduate of Los Angeles College of Chiropractic. He is a Diplomate of the American Chiropractic Rehabilitation Board and one of the most popular and sought after speakers in our profession. Deborah Joan Denno, DC is a 1989 graduate of Logan College of Chiropractic. She has completed Module 1 of the Diplomate of the American Board of Chiropractic Internists (DABCI) program and is an Associate Professor at Cleveland University in Kansas City, Kansas. Please join these excellent presenters on campus for this outstanding program. This seminar may be taken as a stand-alone presentation. If you have completed all 3 sessions, you are qualified to take the certification examination.

**Times: Saturday 1:00pm - 7:00pm**

**Instructor: Zev Myerowitz, DC, Dipl.Ac.**  
**(NCCAOM), Lac.**

The Advanced Acupuncture Program continues this weekend with Dr. Zev Myerowitz presenting Eight Methods of Herbal Treatment, Chinese Herbal Materia Medica, Chinese Diagnostic Systems, Specific Diseases and Treatment and Specific Herbal Formulas and Testing Protocols/EAV. The Advanced classes delve deeper into all aspects of acupuncture and can lead to Diplomate status with the American Academy of Chiropractic Acupuncture and eligibility to sit for the Diplomate examination of the American Board of Chiropractic Acupuncture. If you are already certified in acupuncture you won't want to miss this opportunity to become an expert, maybe even a Diplomate in this powerful healing art. The course is taught by Zev Myerowitz, DC, Dipl.Ac. (NCCAOM), Lac. a 1978 graduate of Logan College of Chiropractic. He is a Diplomate of the National Certification Commission for Acupuncture and Oriental Medicine and a Licensed Acupuncturist in the state of Maine. He has had extensive advanced training

in acupuncture, Taoist studies, facial rejuvenation and gynecology in TCM. He holds postgraduate teaching positions at Parker College of Chiropractic and Cleveland Chiropractic College. He is past President of the American Academy of Chiropractic Acupuncture and of the Acupuncture Society of New England. Dr. Myerowitz has received numerous chiropractic and acupuncture awards and is the author of a number of books and articles. Please join Dr. Zev this weekend for Session # 2 as this in-depthcourse in Advanced Acupuncture continues.

PAYMENT
◆ Pay by phone with your credit card by calling (800) 842-3234 or (636) 227-2100 ext. 1960
◆ Or mail check (payable to Logan University): Logan University Alumni & Friends House 1851 Schoettler Rd. • Chesterfield, MO 63017
◆ Or register online at <a href="http://www.logan.edu">www.logan.edu</a> (click on Alumni and Friends)

**Cancellation Fee:** Your registration may be freely transferred to another person or to a future seminar without any cancellation fee; however, the registration fee will be forfeited if not used or refunded within one year of the original program. If a refund is requested, the cancellation fee is \$25 per registrant per seminar canceled (allow 2-3 weeks after seminar for refunds). It is suggested that registrants pre-register and confirm the status of the seminar. Logan College reserves the right to cancel or adjust program dates, times, speakers, or locations if the need arises. Logan College will not be responsible for registrants' expenses should any program changes occur. All classes announced will be held unless 24 hours prior registration indicates insufficient numbers to hold a seminar in which case those registered will be notified by phone or fax.
