

JOB POSTING

Logan University is comprised of the College of Chiropractic and the College of Health Sciences and blends the perfect balance of tradition with innovation. Established in 1935, Logan College of Chiropractic is one of the largest and most respected chiropractic colleges in North America. Through the College of Health Sciences, Logan offers master's degrees in sports science and rehabilitation, and nutrition and human performance that are accredited by the Higher Learning Commission of North Central. Other program offerings include undergraduate coursework including an Accelerated Science Program to help students complete their basic science coursework at an accelerated pace, offered in both online and on-campus formats, and two baccalaureate degrees- A Bachelor of Science degree in Human Biology and a Bachelor of Science degree in Life Science.

Logan's 112-acre wooded campus is located in Chesterfield, MO, a quiet residential suburb of St. Louis. Its low student-to-faculty ratio provides more personalized instruction, which is most conducive to effective learning. MSNBC has selected Logan's campus as an editor's pick of one of "America's Most Beautiful College Campuses." Logan offers an outstanding benefits package to eligible employees including free chiropractic care. Learn more about Logan University at www.logan.edu.

Job Title: Diagnostic Imaging Residency/Fellowship

Date: June 11, 2015

DIAGNOSTIC IMAGING RESIDENCY:

Logan University is accepting applications for its three-year residency in diagnostic imaging. Upon successful completion of the program requirements, the resident is eligible to sit for examination by the American Chiropractic Board of Radiology (ACBR). Openings are available **April 2016 and September 2017**.

Qualifications and Requirements: A DC degree from a chiropractic college holding status with the Council on Chiropractic Education at the time of the applicant's graduation. Be eligible for a Missouri DC license and shall have a Missouri license prior to employment. Have at least a 3.0 GPA in the DC professional program.

Selection Process: All applications will be reviewed by the Residency Committee and applicants will be selected for interviews on campus. Those chosen for interview for the Diagnostic Imaging Residency Program will be required to complete the following:

- An on-campus interview with the Residency Committee Representatives
- An oral examination evaluating knowledge of diagnostic imaging with the Chair of the Radiology Department.
- Present a clinical radiology case study on PowerPoint as part of the on-campus interview.

DIAGNOSTIC RADIOLOGY FELLOWSHIP:

The Diagnostic Radiology Fellowship is a one-year comprehensive academic and clinical training program covering the full continuum of diagnostic imaging with special emphasis on musculoskeletal diagnostic ultrasonography. Completion of the program will prepare diagnostic imaging residents or board-certified chiropractic radiologists for a career in private practice, academics or research, and eligibility for the American Chiropractic Board of Radiology (ACBR) exam. The openings are available in **April 2016 and September 2017**.

Qualifications and Requirements: A DC degree from a chiropractic college holding status with the Council on Chiropractic Education at the time of the applicant's graduation. Be eligible for a Missouri DC license and shall have a Missouri license prior to employment. Applicate must have completed a diagnostic imaging residency program in good standing from a chiropractic college.

REQUIRED SUPPORTING DOCUMENTS:

1. Logan University application for employment form
2. Letter detailing your suitability for the program
3. Current Curriculum Vitae
4. Copies of all professional licenses and certificates
5. Copy of Diploma
6. Letter of recommendation from Department Chair of Radiology at the chiropractic institution from which your degree was granted
7. Request official transcripts from:
 - All undergraduate institutions
 - Graduate institution
 - Pre-professional institutions
 - Chiropractic institutions
 - National Board of Chiropractic Examiners
