Equal Opportunity Employer M/F/V/D

**Job #:** 1013

**Job Title:** Adjunct On-line Faculty - Physics I with Lab

**Date Open:** March 21, 2013

**Department:** Logan College University Programs

**Status:** Part-time Adjunct

**Job Duties and Responsibilities:**

Logan College of Chiropractic and University Programs now offers a number of basic science courses online (100% distance delivery) in our **Accelerated Science Program**. These are undergraduate courses taught in an accelerated, 8 week format. All basic science courses in the curriculum include a lab component. Students can start in the Fall (September), Spring (January) or Summer (May) trimester.

Teach one and/or two 4 credit hour (3 hour lecture/1 hour lab) online (algebra-based) **Physics I** and/or **Physics II** courses in an accelerated eight week format, as assigned. Duties include, but are not limited to: development of course, lab and syllabi; assessment of student learning outcomes; holding virtual office hours; and coordinating instructional activities with on-campus counterpart.

**Qualifications:**

M.S. in Physics is required, with Ph.D. strongly preferred; plus five years of teaching experience; or equivalent combination of education and experience. Preference will be given to applicants with web-based online teaching and online lab experience.
