

JOB POSTING

Logan University is comprised of the College of Chiropractic and the College of Health Sciences and blends the perfect balance of tradition with innovation. Established in 1935, Logan College of Chiropractic is one of the largest and most respected chiropractic colleges in North America. Through the College of Health Sciences, Logan offers master's degrees in sports science and rehabilitation, and nutrition and human performance that are accredited by the Higher Learning Commission of North Central. Other program offerings include undergraduate coursework including an Accelerated Science Program to help students complete their basic science coursework at an accelerated pace, offered in both online and on-campus formats, and two baccalaureate degrees- A Bachelor of Science degree in Human Biology and a Bachelor of Science degree in Life Science.

Logan's 112-acre wooded campus is located in Chesterfield, MO, a quiet residential suburb of St. Louis. Its low student-to-faculty ratio provides more personalized instruction, which is most conducive to effective learning. MSNBC has selected Logan's campus as an editor's pick of one of "America's Most Beautiful College Campuses." Logan offers an outstanding benefits package to eligible employees including free chiropractic care. Learn more about Logan University at www.logan.edu.

Job Title: Faculty- Full time in the department of Master of Science (MS) in Nutrition and Human Performance

Overview of Program and Responsibilities:

The Masters of Science (MS) in Nutrition and Human Performance at Logan University, in St. Louis, Missouri invites applications for a dynamic and energetic full-time faculty appointment at the Assistant/Associate Professor level. Candidates are sought who are positive, believe in high levels of faculty/student interaction, practical application of content, enjoy contributing to the student capstone experience through mentorship and advising, and believe in a student centered learning community. In addition to teaching responsibilities this position will participate in scholarship and service that promotes the field of nutrition as well as the University's mission, vision, and values (<http://www.logan.edu/about-logan>)

Logan University's Nutrition and Human Performance program is regionally accredited and offered online. In addition, faculty experts from the Nutrition and Human Performance help teach in the Doctor of Chiropractic Program giving them a large scope of educational influence over future health care providers and integrated health practices. The MS degree is designed for individuals seeking midlevel career advancement opportunities as well as individuals in health, sports, or education professions seeking to expand their expertise in the area of nutrition and human performance.

Competencies/Qualifications:

Minimum Qualifications:

- Earned doctorate in Nutrition or a closely-related field

- Demonstrated evidence of scholarly research
- Experience in teaching at a university level

Preferred Qualifications:

- Clinical nutrition experience
- Online course delivery experience
- Graduate teaching and advising experience
