

JOB POSTING

Logan University is comprised of the College of Chiropractic and the College of Health Sciences and blends the perfect balance of tradition with innovation. Established in 1935, Logan College of Chiropractic is one of the largest and most respected chiropractic colleges in North America. Through the College of Health Sciences, Logan offers master's degrees in sports science and rehabilitation, and nutrition and human performance that are accredited by the Higher Learning Commission of North Central. Other program offerings include undergraduate coursework including an Accelerated Science Program to help students complete their basic science coursework at an accelerated pace, offered in both online and on-campus formats, and two baccalaureate degrees- A Bachelor of Science degree in Human Biology and a Bachelor of Science degree in Life Science.

Logan's 112-acre wooded campus is located in Chesterfield, MO, a quiet residential suburb of St. Louis. Its low student-to-faculty ratio provides more personalized instruction, which is most conducive to effective learning. MSNBC has selected Logan's campus as an editor's pick of one of "America's Most Beautiful College Campuses." Logan offers an outstanding benefits package to eligible employees including free chiropractic care. Learn more about Logan University at www.logan.edu.

Interested candidates please send application and required documents shown below to:

Logan University
ATTN: Human Resources
1851 Schoettler Road
Chesterfield, MO 63017

Diagnostic Imaging Residency:

Logan University is accepting applications for its three-year residency in diagnostic imaging. Upon successful completion of the program requirements, the resident is eligible to sit for examination by the ACBR. There are two openings, **April 2015** and **April 2016**.

Diagnostic Radiology Fellowship:

The Diagnostic Radiology Fellowship is a one-year comprehensive academic and clinical training program covering the full continuum of diagnostic imaging with special emphasis on musculoskeletal diagnostic ultrasonography. Completion of the program will prepare diagnostic imaging residents or board-certified chiropractic radiologists for a career in private practice, academics or research, and eligibility for the ACBR. The opening is available in **September 2015**.

Required Supporting Documents:

1. Logan University application for employment form
2. Letter detailing your suitability for the program
3. Current Curriculum Vitae
4. Copies of all professional licenses and certificates
5. Copy of Diploma
6. Letter of recommendation from Depart. Chair of Radiology at the chiropractic institution from which your degree was granted
7. Request official transcripts from:
 - All undergraduate institutions
 - Graduate institution
 - Pre-professional institutions
 - Chiropractic institutions
 - National Board of Chiropractic Examiners

Upon retrieval of application, Logan's HR will send candidate program requirements and corresponding handbook.
