

JOB POSTING

Logan University is comprised of the College of Chiropractic and the College of Health Sciences and blends the perfect balance of tradition with innovation. Established in 1935, Logan College of Chiropractic is one of the largest and most respected chiropractic colleges in North America. Through the College of Health Sciences, Logan offers master's degrees in sports science and rehabilitation, and nutrition and human performance that are accredited by the Higher Learning Commission of North Central. Other program offerings include undergraduate coursework including an Accelerated Science Program to help students complete their basic science coursework at an accelerated pace, offered in both online and on-campus formats, and two baccalaureate degrees- A Bachelor of Science degree in Human Biology and a Bachelor of Science degree in Life Science.

Logan's 112-acre wooded campus is located in Chesterfield, MO, a quiet residential suburb of St. Louis. Its low student-to-faculty ratio provides more personalized instruction, which is most conducive to effective learning. MSNBC has selected Logan's campus as an editor's pick of one of "America's Most Beautiful College Campuses." Logan offers an outstanding benefits package to eligible employees including free chiropractic care. Learn more about Logan University at www.logan.edu.

Job Title: Stage Technician

Date Open: 11-21-14 – Part time position with variable hours . Approximately 20 hours a week.

Job Duties and Responsibilities:

The Stage Technician plays a key role in the day to day operations of the William D. Purser center, a 47,000 square foot multipurpose venue located on the campus of Logan University. The Stage Technician supports the Technical Director with events, activities, and teaching within the Purser Center.

This person would need to have a flexible work schedule with the ability to work during the normal work week as well as weekends and nights. Ability to assist during inclement weather and ability to be on call for emergencies.

Additional responsibilities include:

- Attend rehearsals, production meetings and shows as needed.
- Provide technical support for rehearsals and shows as needed.
- Assist the director with load-in and strike events as needed.
- Instruct clients on technical equipment when volunteers are assigned.
- Manage student workers.
- Maintain and install all lighting, audio, video and control equipment as needed

Competencies/Qualifications:

- Experience with stage management.
- Working knowledge of the following:
 - Conventional and intelligent lighting
 - Audio systems
 - Video systems
 - Video projection and production systems
 - Automated control systems
- Experience with technical drawings and drafting.
- Experience working with scissor lifts and heights.

- Prefer Bachelor's degree in Fine Arts with emphasis in Technical Theater or minimum of 3-5 years of related experience

- Additional experience with live events.

- Experience with classroom audiovisual technology and automation.
