

LOGAN UNIVERSITY

JOB POSTING

Logan University is comprised of the College of Chiropractic and the College of Health Sciences and blends the perfect balance of tradition with innovation. Established in 1935, Logan College of Chiropractic is one of the largest and most respected chiropractic colleges in North America. Through the College of Health Sciences, Logan offers master's degrees in sports science and rehabilitation, and nutrition and human performance that are accredited by the Higher Learning Commission of North Central. Other program offerings include undergraduate coursework including an Accelerated Science Program to help students complete their basic science coursework at an accelerated pace, offered in both online and on-campus formats, and two baccalaureate degrees- A Bachelor of Science degree in Human Biology and a Bachelor of Science degree in Life Science.

Logan's 112-acre wooded campus is located in Chesterfield, MO, a quiet residential suburb of St. Louis. Its low student-to-faculty ratio provides more personalized instruction, which is most conducive to effective learning. MSNBC has selected Logan's campus as an editor's pick of one of "America's Most Beautiful College Campuses." Logan offers an outstanding benefits package to eligible employees including free chiropractic care. Learn more about Logan University at www.logan.edu.

Integrated Health Center Clinician / CHIPS clinic location part-time Tuesday 12-5pm

SUMMARY: Support Logan's efforts to accomplish their mission in graduating competent, qualified, confident doctors of chiropractic. Responsibilities include delivery of consistently high quality patient care using evidence-informed, patient-centered approaches while training and mentoring Logan senior interns. A superior level of communicative ability is expected.

PRINCIPLE DUTIES AND RESPONSIBILITIES:

1. Responsible for patient care delivered within one or more of Logan University's Integrative Health Centers, including patient consultation and evaluation, rendering of diagnosis(es) and application of appropriate treatment strategies, including referral. Adherence to evidence-informed, patient-centered principles and guidelines is expected. Thorough and timely clinical documentation is required.
2. Demonstrates, assists and supervises Logan interns in the delivery of patient care including all aspects of patient communication, history taking and examination processes, and treatment and/or referral. Consistently provide formal and informal objective assessment of intern knowledge, skills and attitudes; adherence to the RIME format of assessment is required.
3. Responsible for managing day to day operations of the Logan Integrated Health Center, including patient and intern scheduling, data collection for QA program budgeting and other administrative purposes, and development and maintenance of interprofessional relationships within the integrated system they are assigned.
4. Responsible for consistent efforts directed toward professional development, scholarship and/or clinical research.
5. Employee will follow all quality patient care measures and initiatives deployed.

COMPETENCIES: Must be able to write clearly and informatively. Must have leadership and decision-making abilities and know how to delegate work assignments. Must be ethical, dependable and willing/able to follow organizational policies and procedures. Must be able to prioritize, manage competing demands. Must deal with a wide variety of people in a professional manner. To perform the job successfully, an individual should have interpersonal skills that allow him/her to focus on resolving conflict, keeps emotions under control and remain open to others' ideas.

QUALIFICATIONS: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Doctor of Chiropractic degree and minimum of seven years practice experience, or equivalent combination of relevant education and clinical experience. Postgraduate degrees and/or diplomate status is preferred; significant experience within an integrative setting as a provider is strongly preferred.

Ability to demonstrate all skills related to the successful practice of chiropractic.

Must have basic math skills and ability to read, analyze, and interpret general business periodicals, professional journals, technical procedures, and/or governmental regulations. Ability to write reports, business correspondence, and procedure manuals. Ability to effectively present information and respond to questions from groups of managers, clients, customers, and the general public. Ability to solve practical problems and deal with a variety of concrete variables in situations where only limited standardization exists. Ability to interpret a variety of instructions furnished in written, oral, diagram, or schedule form.

Certificates, Licenses, Registrations: Must be a Chiropractor licensed in the State of Missouri.

Other Qualifications: Must be able to handle periods of weekly work of approximately 5-10 hours.

PHYSICAL DEMANDS: The physical demands described here are representatives of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to talk or hear to patients, student interns and staff. The employee is frequently required to sit when doing paperwork or using computer. Must frequently stand, walk and use their hands and fingers in order to demonstrate chiropractic techniques. The employee must occasionally aid in the transfer of patients weighing over 200 pounds. Specific vision abilities required by this job include close vision in order to use the computer to produce communications and reports and to review/interpret x-ray and diagnostic imagery slides. Overall, the physical requirements are those consistent with performing the duties of a practicing chiropractor.

WORK ENVIRONMENT: The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
