

LOGAN UNIVERSITY

JOB POSTING

Logan University is comprised of the College of Chiropractic and the College of Health Sciences and blends the perfect balance of tradition with innovation. Established in 1935, Logan College of Chiropractic is one of the largest and most respected chiropractic colleges in North America. Through the College of Health Sciences, Logan offers master's degrees in sports science and rehabilitation, and nutrition and human performance that are accredited by the Higher Learning Commission of North Central. Other program offerings include undergraduate coursework including an Accelerated Science Program to help students complete their basic science coursework at an accelerated pace, offered in both online and on-campus formats, and two baccalaureate degrees- A Bachelor of Science degree in Human Biology and a Bachelor of Science degree in Life Science.

Logan's 112-acre wooded campus is located in Chesterfield, MO, a quiet residential suburb of St. Louis. Its low student-to-faculty ratio provides more personalized instruction, which is most conducive to effective learning. MSNBC has selected Logan's campus as an editor's pick of one of "America's Most Beautiful College Campuses."

Logan offers an outstanding benefits package to eligible employees including free chiropractic care. Learn more about Logan University at www.logan.edu. **Interested candidates please send resume to: resumes@logan.edu**

Job Title: Faculty Instructor- College of Health Sciences

Date Open: January 2015

Job Summary: Full time/Exempt

This position provides instructional support for courses in the College of Health Sciences programs. The duties include, but are not limited to the development of syllabi, assessment of student learning outcomes, participation on thesis committees as well as instructional responsibilities.

Some responsibilities include:

- Incorporating the mission of Logan University into division objectives and classroom instruction, focusing each classroom experience on student learning.
- Accountability to students and administration with respect to education.
- Incorporating current profession information into the class presentations.
- Coming to class prepared and on time, using class time effectively and maintaining professional conduct in classroom. Academic advising and counseling of students, maintaining regular office hours.
- Preparing tests that have sound instructional value with accurately measured and well-defined objectives.
- Comfortable and proficient in online course instruction.
- Participation in faculty meetings, workshops and college ceremonies.

Qualifications:

- Doctoral degree in Nutritional studies or related field; plus five years of experience or equivalent combination of education and experience.
- Strong interpersonal and communication/organizational skills and ability to interact effectively with students, faculty and staff
- Ability to write reports, business correspondence and procedure manuals
- Ability to effectively present information and respond to questions from groups of students, managers, customers and general public.
- Ability to define problems, collect data, establish facts and draw valid conclusions.
