

## Unique Options for Enhancing Your Practice 2012

Unique Options for Enhancing Your Practice is back on campus! This is a format that you cannot find anywhere else. All workshops. No boring “butts-in-seats” lectures. A totally hands-on interactive seminar. **AND THIS SEMINAR IS APPROVED FOR THE MISSOURI REQUIRED HOURS.** The seminar is also approved for other states; please check with the postgraduate department or your state board. Please look inside for details.

### Learning Objectives

- Improve Patient Care
  - Sharpen Your Clinical Skills
  - Get Hands-On Instruction
  - Integrate Information and Procedures into Your Practice
- First Thing Monday Morning

#### Cancellation Fee:

Your registration may be freely transferred to another person or to a future symposium without any cancellation fee; however, the registration fee will be forfeited if not used or refunded within one year of the original program. If a refund is requested, the cancellation fee is \$25 per registrant per symposium cancelled (allow 2-3 weeks after symposium for refunds). It is suggested that registrants pre-register and confirm the status of the symposium. Logan College reserves the right to cancel or adjust program dates, times, speakers, or locations if the need arises. Logan College will not be responsible for registrants' expenses should any program changes occur. All classes announced will be held unless 24 hours prior registration indicates insufficient numbers to hold a symposium in which case those registered will be notified by phone or fax.

## Unique Options for Enhancing Your Practice 2012

*Unique Options for Enhancing Your Practice* is back on campus! This is a format that you cannot find anywhere else. All workshops. No boring “butts-in-seats” lectures. A totally hands-on interactive seminar. **AND THIS SEMINAR IS APPROVED FOR THE MISSOURI REQUIRED HOURS.** The seminar is also approved for other states; please check with the postgraduate department or your state board. Just take a look at the topics and instructors. Dr. Nelson Marquina is a world-renowned expert on *Laser Therapy*. In this interactive presentation Dr. Marquina shows us how to treat with a *Low Level Laser* by examining the area with *Thermography* before and after treatment so that results are immediately apparent to you and to your patient. Dr. Marquina’s lecture is titled *Laser Therapy and the Chiropractor*. Then join us as Dr. Manuel Duarte introduces BACSYS, the *therapeutic exercise system* that can take your practice to the next level. In this hands-on session Dr. Duarte discusses *therapeutic exercise* for *rotator cuff syndrome*, *low back stabilization*, and *patellar tracking disorder*. Great stuff! *Non-Ablative Long Wave Radio Frequency (RF)* is a powerful adjunct for pain control and tissue healing as is *Microcurrent*. Nelson Thibodeaux is an expert on both of these modalities, and will provide a hands-on demonstration for you. Dr. Howard Loomis’ system of *Stress Point Evaluation* reveals structural indicators that assist in clinical certainty. Dr. Louis De Palma will have you performing these procedures in no time and you’ll be using them in your practice Monday morning. Our next presentation combines two of the hottest topics in healthcare today – *sports and nutrition*. Dr. Michael Trexler teaches us how to integrate *sports nutrition* into our practices whether we are treating elite athletes, weekend warriors, or our regular patients. Dr. Trexler’s lecture is titled *The Physiologic Effects of Electrolyte Balance in Human Performance*. Dr. Steven Zilke is both a Physical Therapist and a Doctor of Chiropractic. He is a well-known expert in *rehab therapy* specifically designed for chiropractors. In this session you will interact with Dr. Zilke and try out the latest in *rehab techniques* so that you can teach your patients how to use these procedures to speed the healing process. There are few tools more effective for showing patient progress to insurance companies, attorneys, and to the patients themselves than visual proof. *Thermography* provides an easy and effective means to measure patient progress. Dr. Frederick Schurger and Joseph Titone will demonstrate the use of *thermography* and provide examples of patient graphs showing *thermographic changes* following chiropractic care. Our next presenter is Dr. Doris Kutz-Compton who has worked in the field of *nutrition and wellness* for over twenty years. Dr. Kutz-Compton presents *Endocrine Wellness* a fascinating discussion and demonstration of *endocrine balance* through evaluation, testing and protocol application. And for something completely different, Dr. Jim Shores provides an introduction and overview of *Auriculotherapy*. *Auriculotherapy* is a powerful modality for pain control and for use in stop-smoking protocols and a multitude of various conditions and maladies. Dr. Shores will show you how to use this powerful therapy up close and personal.

So there you have it. Twelve hours of continuing education with no boring lectures – just hands-on education and fun. Here are some reasons why you will absolutely not want to miss this program:

- Approved for the Missouri Required Hours and other states.
- Cutting Edge Topics
- Expert Instructors
- Gifts from these outstanding companies: Performance Health (BIOFREEZE®), Loomis Enzyme Institute, USA Laser, Foot Levelers, Inc., TBI, Inc., Electro Medical, Standard Process, Biotools, and The Key Company.
- Snacks and Beverages all weekend with no extra charge
- A Hot Lunch on Saturday at no extra charge
- A Hot Brunch on Sunday at no extra charge
- Door Prizes
- A Very Low Tuition: \$125 Regular Registration or \$100 Early Bird Registration

**Why Attend?** Twelve hours of continuing education approved for the Missouri Required Hours as well as other states, two hot meals, snacks and beverages, door prizes, gifts from vendors, and valuable information and procedures that you can take back to your office and use Monday morning. All of this for \$100 if you register by the early bird deadline. There really is no better way to spend an educational weekend in November. We hope to see you there.
