

**LOGAN UNIVERSITY**  
CHIROPRACTIC HEALTH CENTERS

Are you between the ages of 18-50 and suffering from an **ankle sprain?**

If you or someone you know suffers from an ankle sprain, you may qualify to participate in a clinical research study of a specific nutritional supplement in conjunction with chiropractic care!

**Qualified participants will receive at no cost:**

- Investigational study supplements, or placebo
- Participants will receive \$10 per assessment, for 6 follow-up assessments (\$60 total)

Talk to your chiropractor today to see if you are eligible to participate!

For additional study information, please contact:
