

LOGAN UNIVERSITY

Professional Dress Guidelines

Students are expected to dress in attire appropriate to the event in which they are attending. Students should represent themselves in a way that is consistent with Logan University mission, vision, and values as well as those of the profession they are pursuing. Certain classrooms, clinics, and events may have specific dress code requirements and students are expected to adhere to those standards, for example, the anatomy lab requires closed toe shoes.

Casual attire is appropriate for the classroom, unless otherwise articulated for the specific course or course session.

Casual Attire

Clinic Attire

As representatives of the health care profession, students are expected to dress in attire that communicates credibility, respect, confidence and meets professional standards. Appropriate dress is also essential to enhance patient safety in the clinical setting. When students are assigned to clinical activities in any of Logan University approved clinical settings, they should consider themselves as

representatives of Logan University. Attire and behavior should promote a positive impression for the individual student, the specific course, and the institution.

In addition to the guidelines outlined below, certain departments and some clinical affiliate institutions may require alternative dress guidelines, which must be followed.

- Recommended acceptable attire includes:
 - Males: Clean and pressed dress pants/slacks, tucked button dress shirt with a tie or collared polo-style shirt.
 - Females: Clean and pressed dress pants/slacks or skirt, blouse with modest neckline, or collared polo-style shirt. A professional dress is also acceptable, but must maintain modesty during adjusting and other evaluation or clinical duties.
- Students are expected to wear a short white coat with their name badge and Logan University identification visible, unless otherwise stated by the clinical site.
- Students must maintain good personal hygiene, be well-groomed, and dressed in a manner appropriate to their responsibilities.
- Hair shall be clean, dry, and styled neatly. Long hair should be tied back or worn up so that it does not touch the patient, nor obstruct vision. Hair color and style must be appropriate for the clinical environment.
- Shoes must be comfortable, clean, in good condition and appropriate to the job duties. Flip-flops, slippers, or open-toed shoes/sandals are NOT allowed in the clinical setting.
- Facial hair must be neatly groomed, clean, and must not interfere in any way with the student's clinical performance.

- Jewelry worn by students must be of reasonable shape and size, appropriate to the clinical setting and may not interfere with patient care, execution of responsibilities, or safety.
- Inappropriate or offensive tattoos are to be covered and not visible when in the clinical setting.
- Perfumes, colognes, or heavy fragrances must not be worn because of the possibility of others' sensitivity to strong scents.

In environments where clinic dress is appropriate, the following are not: jeans, overalls, sweat shirts, sweat pants/joggers, shorts, leggings, yoga pants, halter or tank tops, non-collared tee shirts, work-out clothes, sandals or open-toe shoes, caps, bandanas, baseball hats, or body or facial piercings other than earrings and small nose studs and those required by a student's religious or cultural beliefs.
