

FAQs for Logan Students, Faculty and Staff

What should I know about campus closures?

Logan University is extending Spring Break through March 20 for on-campus students. All **classes and labs** will be online beginning Monday, March 23 through the rest of the trimester.

Are students required to return to the clinic at this time?

Students who are currently in Trimester 7 – 10 and are either uncomfortable or unable to make it back to campus to complete their clinical requirements may request to complete their clinical hours next trimester and receive an incomplete from their clinic instructor (clinician).

While the Logan University clinics remain open, those Trimester 7 – 10 students who are able to be in clinic should make every effort to work to complete their clinical rotations; however, the decision to keep the clinics open remains fluid and is being reviewed on a daily basis in the best interest of our students, patients, workforce, and the community at large.

Please contact your clinician if you are completing your clinical rotation site. If you are completing your rotation at an off-site location, please contact Dr. Jason Goodman, Jason.Goodman@logan.edu.

If you have any additional questions or concerns, please contact Associate Provost and Dean of the College of Chiropractic Dr. Joe Pfeifer, Joseph.Pfeifer@logan.edu.

What additional events/programs are cancelled and what facilities are closed?

All of Logan's weekend electives are cancelled for the next six weeks. Weekday electives will be online.

Logan's on-campus Postgraduate Seminars are canceled through mid-May. All upcoming dates for Certification programs will be postponed until Postgraduate staff can reschedule at the appropriate time. For more information or questions, please email postgrad@logan.edu.

The Tour of the Body program is suspended for the next six weeks; Memorial Services for anatomic donors will be rescheduled.

Spring Symposium is cancelled for 2020.

Any admissions-related events on-campus will be suspended for the next six weeks.

The following facilities will be closed: The Purser Center, Wellness Center, the majority of classrooms in the Administrative Building, the Student Center and the cafeteria for the next six weeks.

Areas of The Learning Resource Center will remain open however certain sections will close, including the stacks, the Idea Room and the Bone Room; LRC personal will be available to students in-person and online.

The Basic Sciences Building will remain open for faculty who have an office in the building. At this time, we plan to keep the building open for 10 days, as we evaluate options.

What will remain open?

Select areas of campus, including some offices, will remain open.

The Learning Resource Center will remain open however certain sections will close, including the stacks, the Idea Room and the Bone Room; LRC personal will be available to students in-person and online.

The Alumni & Friends House will remain open, at this time.

The Bookstore will remain open from 9 a.m. to 2 p.m., Monday through Friday.

The Montgomery and Mid Rivers Health Centers will remain open for patient care and student clinics. The requirement for participation of Trimester 7-10 students is currently under review. Health Center leadership will provide additional information about student scheduling and hours tomorrow.

How can we find contact information for faculty and staff?

The link below provides instructions for obtaining contact information to Logan faculty and staff. <https://www.logan.edu/wp-content/uploads/2020/03/DirectoryInstructions.pdf>

Does the Spring Break extension affect the trimester end date?

At this time, the trimester ending date will not be affected. Professors will be instructed to communicate with students regarding updated course schedules and exam dates.

What if I don't have access to a computer for online instruction?

For those students in the St. Louis metropolitan area who don't have access to computers at home, Logan will make computers available at the Mid Rivers Health Center in St. Peters, Mo., as soon as possible. This will require scheduling and will be limited to 10 students or less at one time.

More information to follow, including a point of contact for scheduling and computer access.

Students may use their iPads for all school work and testing (Exemplify).

FAQs for Logan Students, Faculty and Staff

Will student preceptorships and internships continue?

Student preceptorships and internships will continue at the discretion of the provider and facility. If completing a preceptorship or internship at this time is not possible because of closures, students will be granted an extension and Logan will assist you in finding another viable option. Please contact Dr. Jason Goodman at Jason.Goodman@logan.edu or Linda Kenny at Linda.Kenny@logan.edu.

Will the April 25 commencement be cancelled?

The April 25, 2020 graduation will be postponed and combined with the August 22, 2020 commencement ceremony. Attendance is voluntary.

After April 25, current Trimester 10 students who have completed all academic requirements to graduate will receive their transcripts and diploma in the mail. Please contact the Registrar's office to confirm your current address at registrar@logan.edu.

What is the status of upcoming National Board of Chiropractic Examiners (NBCE) exams? Students may check for NBCE exam cancellations and rescheduling updates at mynbce.org/examinfo.com.

Are you cancelling Spring Symposium?

Yes, Spring Symposium is cancelled for 2020.

What is Logan doing to reduce risk and spread of infection on campus?

We have enacted more frequent and rigorous cleaning and disinfecting procedures on campus, including:

- Disinfecting all areas of the University daily using a misting gun with the product Vital Oxide
- All classrooms, including desks and chairs, as well as handrails and doorknobs, will be cleaned multiple times throughout the day
- More hand sanitizer dispensers are being installed throughout campus
- All adjusting tables, exam tables in the clinic and labs, as well as other hard surfaces, will be cleaned multiple times throughout the day
- More manpower, including the facilities team, will be added to our hard-working cleaning crew
- To reduce proximity, we plan to keep group size, either in the waiting rooms or testing areas, to 50 individuals or less at any given time.
- Everyone is reminded to take precautions to prevent the spread of infectious disease, including washing hands with soap and water for at least 20 seconds, covering your nose and mouth when coughing or sneezing, and avoiding touching your eyes and face. If you feel ill, please stay home and contact your doctor or health care provider.

What if I become ill or believe I may have Coronavirus?

Immediately contact your personal health care provider.

If you believe you may have been exposed to COVID-19 and have signs of illness, including fever, cough, or shortness of breath), please self-report to Logan by contacting Dean of Students Shelley Sawalich at 636-230-1797. We will help protect your privacy, of course, and offer assistance however possible.

If you are coming back to St. Louis from areas where the Coronavirus disease/COVID-19 outbreak is concentrated (at this time, that includes New York City, San Francisco, Seattle and areas within a 100-mile radius as well all ski resorts and cruises), please take care to follow CDC guidelines and self-quarantine for two weeks, regardless of symptoms.

What is the University's current policy for travel?

All non-essential University travel is strongly discouraged through March 20, 2020. This includes any non-essential travel associated with the University for all faculty and staff.

Where can I find more information?

Visit www.logan.edu/healthupdate for campus updates as well as county, state and national resources regarding Coronavirus.
