Additionally, athletes must complete all the requirements set out in the World Para Powerlifting Qualification Pathway 2017-2020 as stated in Section 1.1.3. Exceptions may be made via the Bipartite Invitation method.

- 1.2.2. Provide event names, dates, locations and description of how athletes qualify for the trials, events and camps listed above in 1.2.1. (if any).

N/A

- 1.3 Provide a comprehensive, step-by-step description of the method that explains how athletes will go through the selection process (include maximum Team size).

The qualification slot is allocated to the individual athlete not to the NPC. An NPC can enter a maximum of one (1) eligible athletes per medal event, and no more than eight (8) eligible male and eight (8) eligible female athletes in total. Exceptions may be granted through the Bipartite Invitation Commission Allocation method. Athletes may qualify through the Paralympic Ranking List or by the Bipartite Commission Invitation.

Paralympic Ranking List Allocation Method:

The top eight (8) ranked male athletes, and top eight (8) ranked female athletes in each body weight category listed on the (WPPO) ranking list closing 23 April 2020 will obtain a direct qualification slot in their respective medal event.

In case an NPC is represented in more than eight (8) body weight categories in either gender of the WPPO ranking list closing 23 April 2020, the NPC must nominate which eight (8) athletes per gender should be offered a qualification slot. This shall be decided via the discretionary selection process in Section 2.

Any qualification slot that becomes available will then be allocated to either gender via Bipartite Invitation method by WPP.

Bipartite Commission Invitation Allocation:

To be considered for a Bipartite slot, NPCs must submit an official application to World Para Powerlifting by 11 May 2020.

Logan University may, but is not required to, submit an application for a Bipartite slot depending on whether or not, as determined by the Logan University Selection Committee, there are athlete candidates who meet the discretionary selection criteria set forth in section 2.1, who are capable of a top three (podium) result, or can positively impact team performance. The Logan University Discretionary Selection Committee shall be responsible for making any such selection. Logan University will disclose on its website (<https://www.logan.edu/usa-para-powerlifting>) the submission of a particular athlete to the IPC/WPPO for a Bipartite slot.

If the IPC/WPPO awards a Bipartite slot to the athlete by name, Logan University will accept such athlete to the Team provided he or she meets all the eligibility provisions and other requirements set forth in these Procedures.

2. DISCRETIONARY SELECTION (if applicable)

Provide rationale for utilizing discretionary selection (if any):

- 2.1 Discretionary selection criteria may be utilized for a bipartite application. The two highest ranked U.S. athletes, in any weight class or any gender, may be submitted for bipartite. If athletes fall into the factors below they may also be submitted for bipartite.

The Logan University Discretionary Selection Committee will consider the following performance-related factors (which are not in priority order):

The athlete(s) experienced an injury or illness or there was another personal factor that impeded maximal performance or prevented the athlete from competing during September 29, 2017 through May 06, 2019.

The athlete entered a new weight category and represents a potential medal in the new sport category.

The athlete(s) experienced equipment failure, weather, interference, or other external factors, either natural or caused by others, at the qualifying event(s), that impeded what otherwise likely would have been a qualifying result.

The athlete demonstrates a trend of improving performance in international competition, that when extended a reasonable distance into the future, intersects the current international performance standards for a podium finish.

The athlete, despite age or competing a relatively short time in the sport, has a performance trajectory that is favorable to future international success.

These discretionary selections would only be used in the case of USA Para Powerlifting applying for a Bipartite slot.

- 2.2. Provide the name of the committee that will be responsible for making discretionary selections, along with a complete list of the members' titles currently serving on the committee:

- Logan University Discretionary Committee:
- Program Manager, USA Para Powerlifting
- Executive Director of Paralympic Operations, Logan University
- Athlete Representative, USA Para Powerlifting

- 2.2.1. Specify the process that will be used to identify and handle any potential conflicts of interest involving a member of the committee.

Any member of the selection committee that has a possible conflict of interest must disclose it. If such conflict exists, the selection committee member must recuse him/herself from committee discussions and

voting. Further, the committee member should not otherwise influence other members of the committee in the selection process. However, a committee member who recused him/herself, but who has relevant and necessary information with respect to athlete performance, for example a national team coach or high performance director, may, if requested by the selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and the committee member who declared the conflict of interest does not vote toward the final decision.

3. REMOVAL OF ATHLETES

- 3.1. Prior to entry by name to the Local Organizing Committee by the USOPC, the Logan University has jurisdiction over potential nominees.

An athlete who is to be nominated to the Team by the Logan University may be removed for any of the following reasons, as determined by the Logan University:

- 3.1.1. Voluntary withdrawal. Athlete must submit a written letter to the Executive Director of Paralympic Operations at Logan University.

 - 3.1.4. Violation of the Logan University's Code of Conduct ([see Logan USAPP Code of Conduct policy](#)).

- 3.2 Once athlete entries have been submitted to the Local Organizing Committee by the USOPC, the USOPC has jurisdiction over the Team, at which time, in addition to any applicable Logan University's Code of Conduct, the USOPC's Code of Conduct and Grievance Procedures apply. 4. REPLACEMENT OF ATHLETES

4.1. Describe the selection and approval process for determining replacement athlete(s) should a vacancy occur:

4.1.1. Should a U.S. athlete decline the opportunity to compete, bestowed upon them by the IPC/WPPO, or, if an athlete is removed, there will be no process towards or guarantee of another U.S. athlete as a replacement. The next eligible replacement athlete on the WPPO 2017-2019 Ranking List will be selected by the IPC.
