

Radiology for the Non-Radiologist
Beverly Harger, DC, DACBR

Noon to 2 p.m. CST Sept. 30, 2020
2 Hours Sponsored by NCMIC*

The course **“Radiology for the Non-Radiologist”** will use a case-based approach to cervical spine and shoulder region radiographic interpretation. Dr. Beverly Harger explores the clinician’s role in the utilization of imaging modalities will be emphasized and how the clinician will develop an approach to interpreting cervical and shoulder radiographs to maintain their radiologic skills. This course is expected to result in improved competence in making appropriate diagnosis with the overall goal of improving patient outcomes.

Course Outline:

HOUR	Topic
0.5 hour	Review of targeted radiographic search pattern of cervical spine and shoulder region
1.5 hours	Case-based approach to cervical spine and shoulder radiographic interpretation

**Full-time D.C.s get a yearly 5% Risk Management discount from NCMIC for three consecutive policy years for attending a qualified seminar. 8 hours of qualified instruction is required and must be obtained within one year. Seminars of less than 8 hours will require that the D.C.s contact NCMIC once they have accrued the full 8 hours. Seminar discounts earned up to 30 days after the policy renewal date will apply immediately; those earned 30+ days after the renewal date will apply at the next policy renewal date. Part-time D.C.s are eligible to receive half this discount.*
