

2020 College of Chiropractic and College of Health Science Graduates-

Last year, we had to make the difficult decision to host virtual commencement ceremonies for our 2020 graduates, in light of the COVID pandemic. At that time, we promised to plan a future ceremony when we could successfully gather in person.

We are happy to inform you that we have selected a time and date to recognize the achievements of our April, August and December 2020 graduates of both the College of Chiropractic and College of Health Sciences.

An in-person commencement ceremony will be held on Logan's campus at the William D. Purser, DC Center beginning at **4 PM Saturday, August 21**. The ceremony will be followed by an hors d'oeuvre reception and will be live-streamed for those who are unable to attend the in-person event.

Please indicate if you plan on attending via this [Google form](#) before Tuesday, July 6. This will help inform our decision on the number of guests each graduate will be allotted at the commencement ceremony.

We appreciate your patience and agility as we've navigated the pandemic and adjusted events to comply with social distancing and capacity restrictions. We look forward to having you walk across our stage in August and giving each one of you the proper recognition for this monumental milestone.

Sincerely,

Kimberly Paddock-O'Reilly, DHEd, MSW, MBA
Provost, Logan University
