11th Annual Joseph W. Howe Oration in Diagnostic Imaging

“35 Years a DACBR: Lessons Learned and Things I Missed”

**Presented By:
Gary M. Guebert, BS, DC, DACBR**

**Thursday, May 31, 2018
10:30 a.m.—11:30 a.m.
William D. Purser, DC Center
Logan University
1851 Schoettler Road
Chesterfield, Missouri**

JOSEPH W. HOWE, DC, DACBR, Fellow, ACCR

There are few members of the American Chiropractic College of Radiology whose careers have been as influential as that of Joseph W. Howe, DC, DACBR. For more than six decades, Dr. Howe, has distinguished himself by his contributions as a clinician, radiologist, educator, researcher, and mentor in the field of modern chiropractic radiology. His passion for academic excellence, critical scientific insight and professional advancement has left an indelible impact on the chiropractic profession. His influence is felt daily by the numerous residents, whom he has trained, and who themselves have become inspirational leaders in the chiropractic profession. Today, Dr. Howe still enjoys what he cherishes the most, teaching, as he routinely shares his vast clinical and radiological knowledge base with interns and residents at Logan University.

Dr. Joseph W. Howe has given the American Chiropractic College of Radiology and the chiropractic profession a legacy of unparalleled achievement as a role model and mentor for several generations of chiropractic radiologists. His name will always be associated with the incredible progress of chiropractic radiology in the 20th century. The Joseph W. Howe Oration in Diagnostic Imaging is designed to honor his extensive contributions to and achievements in the education, research and practice of chiropractic radiology.

GARY M. GUEBERT, BS, DC, DACBR

Gary M. Guebert, BS, DC, DACBR, earned his undergraduate degree in Biology at Southeast Missouri State University, in 1973, prior to attending Logan College of Chiropractic where he received his chiropractic degree in 1980. In 1982, following two years of resident training at the Phillip Institute of Technology in Melbourne, Australia, he was awarded Diplomate status by the American Chiropractic Board of Radiology. Dr. Guebert served as chair of the radiology department at Texas Chiropractic College from 1983 through 1986. In 1989, Dr. Guebert was appointed Assistant Professor of Logan's Clinical Science Division, and taught in the Department of Radiology full time until 2017. Dr. Guebert continues to lecture through the postgraduate faculty. He currently serves as director of St. Louis Roentgen Associates, a diagnostic image reading service and serves as Radiation Safety Officer for the Department of Radiology

The author of numerous articles in the field of radiology, he has contributed two chapters to the text by Yochum and Rowe, Essentials of Skeletal Radiology, published by Williams & Wilkins. He produced for Mosby - Year Book, along with Drs. Othel Pirtle and Terry Yochum, Essentials of Diagnostic Imaging, a text for the private practitioner regarding the physics of diagnostic imaging, an approach to obtaining quality radiographs and radiographic quality control in the private office setting.
